

Online Backup

ezTechDirect LLC.

Online Backup

Portable media is quickly becoming an outdated and expensive method for safeguarding important data, so it is essential to secure critical business assets and personal information with an easy-to-use, automated, online backup service. Our backup, archiving and recovery solution is powerful, yet simple to use, and comes equipped with features previously available only to Fortune 500 companies. With an interface designed to be used by anyone in any size organization, this proven technology is user-friendly, reliable, ultra-secure and cost-effective.

Unbeatable Security

Ensuring that no one but you can ever access your data is a top priority to us.

Fast Restoration

Files are available the moment you need them.

Block-Level Backup

Once a file has been saved successfully, our software backs up only changes, down to the block level.

Microsoft Exchange Support

We have developed our software specifically to manage backup, storage, and restoration of Exchange files.

Retention and Archiving

Rest assured that our online backup is a compliance-ready digital archiving solution.

Flexible Scheduling

Welcome to complete scheduling flexibility. Each backup set can be set to run at any user-defined time, on any user-defined frequency. There are default settings, of course, but every aspect of the scheduler is easily configurable.

Easily backup, review and manage your online backup account

Quick access to frequently used tasks

Always know how much data you've backed up

See a quick summary of group revisions and future scheduled backups

The screenshot shows a web-based interface for backup management. It includes a navigation bar with icons for My Account, Backup Sets, Restore, Delete, Activity, Diagnostics, and Preferences. A status bar at the top right indicates 'You are currently using 2.84 GB of 5.00 GB'. The main content area is divided into 'Status and Summary' and 'Scheduled Actions'. The 'Scheduled Actions' section lists several 'Next File backup (My Important Files)' tasks with dates ranging from 4/11/2009 to 4/17/2009 at 2:00 AM. A left sidebar contains links for account management and preferences. A bottom status bar shows 'Connected'.
